

Quality Policy

Our mission is to develop and propose efficient and customized solutions to our customers in the field of displays and printers by remaining at the forefront of new technologies

The sustainable development of OPTO LOGIC Technology will be achieved through the balance and respect of the following three pillars: our customers, our employees, our partners

Through this balance, I want OPTO LOGIC Technology :

- To continue providing our customers with safe, modern, innovative technical solutions that meet their requirements as closely as possible
- To be irreproachable in terms of reactivity, quality and exemplarity
- To rely on the ISO 9001 standard for its organisation for its activities of :

Consulting, design, production and marketing
of electronic devices and components for industry

Our employees must want to be involved in the company, and find an environment that allows them to develop, favouring teamwork, communication and a certain form of benevolence.

Our supplier partners must be involved in our projects and contribute to the success of the company as if they were part of it, thereby generating their own success.

Finally, I want OPTO LOGIC Technology to be a privileged partner for its customers through sustainable growth and the necessary profitability.

Thanks to our continuous improvement in these areas, we will continue to enable our customers to achieve their technical and economic objectives by means of the technical solutions we offer them.

I am committed to providing the necessary resources to achieve our ambitions, while respecting the balance of the company.

A handwritten signature in blue ink, appearing to read "F. Lebany", is positioned at the bottom right of the page.
